Friday 22<sup>nd</sup> March 2024

Dear Parents/Carers,

## Ofsted Visit Update

I am thrilled to share with you all the wonderful news in our latest Ofsted report. Our school has once again been awarded a '**Good**' grade, a testament to the unwavering commitment and hard work of our entire school community. This achievement reflects the high standards we uphold and the positive learning environment we foster.

A heartfelt thank you to our dedicated staff, whose expertise and passion for teaching continue to inspire our pupils to reach new heights. To our students, your enthusiasm for learning and kindness towards each other make our school a truly special place. And to our parents, your support and collaboration have been invaluable.

Together, we have created an atmosphere where every child can excel and feel valued. Let's celebrate this moment and continue to build on our success, ensuring that our school remains a place of excellence and happiness.

## Last Day of Term

Please be reminded that the last day of the Spring term is on the **Thursday 28th March**. The school day will end at **1:30pm** for all children. We kindly ask parents to make the necessary arrangements for their children's early pick-up as there will not be an afternoon nursery session on this day.

**We are a growth mindset school. Our job is to challenge our pupils and let them thrive.**

## Havelock is a Rights Respecting School

### Article of the week: Articles 14 and 27

**Article 24 :** Every child has the right to the best possible health. Governments must provide good quality health care, clean water, nutritious food, and a clean environment and education on health and well-being so that children can stay healthy.

**Article 27:** Every child has the right to a standard of living that is good enough to meet their physical and social needs.

#### Did you know?

- Our bodies are made up of over 60% water and we need clean water to keep them working properly and to stay alive.
- **Drinking dirty, unsafe water can cause serious illnesses.**
- In some communities, children miss out on their education because they must spend time collecting water.
- **We need water for washing ourselves and for keeping our clothes and homes clean.**
- A good water supply is important for good sanitation and flushing our toilets.
- **Pollution of our oceans, rivers and waterways can have a serious impact on all living things.**
- Water is important to generate power in some places and it is a better for the environment than burning fossil fuels.

#### Reflection

***Think about dropping a pebble into a pond. Imagine the ripples gently spreading outwards through the water.***

Now imagine that your action to raise awareness of the importance of the right to clean water is that pebble and the ripples are the positive effects of your action.

Think about what your action might be...

### OR OF THE WEEK. Build Relationships

Year 3 have worked extremely well to build strong relationships with one another. This week we were fortunate to have a visitor from the Benjamin Franklin Museum come and deliver a science workshop on forces. The pupils collaborated to create their own parachutes. They listened well to each other and took turns which enabled them to get the most out of the session.

We are a growth mindset school. Our job is to challenge our pupils and let them thrive.

## Year 4 & 5 Tenebrae Concert

On Tuesday 19th, our Yr 4 and Yr 5 Tenebrae choir performed for our end of term concert. All children sang exceptionally well and had the audience in awe of their singing ability.

The leaders of Tenebrae choir, also Performed for us, which was very melodic and harmonious.

Well done to our Tenebrae choir!

## ARP

### ARP 1

ARP 1 have continued learning about the story Jack and the beanstalk. This week they have been planting their own beanstalks. They have also worked on their motor skills by drawing pre-writing shapes in sand.

### ARP 2

ARP 2 have been learning about different types of jobs. They discussed what kind of jobs their parents have. They drew what kind of job they want in the future.

### ARP 3

This week, ARP 3 continued their English work based on Tiddler the storytelling fish. They thought about what the characters were thinking at different parts in the story. In maths, they were thinking about equipment and units to use for different types of measuring.

### ARP 4

ARP 4 used laptops to research information about a country. They used this to write a persuasive text trying to convince people to go to their specific location for a holiday. They tried to use adjectives and exaggeration.

**We are a growth mindset school. Our job is to challenge our pupils and let them thrive.**

## EYFS

Reception children engaged in a culinary exploration, making Turnip Soup. They carefully peeled, chopped, and simmered the turnips, integrating mathematical concepts learned this week, such as first, next, then and last.

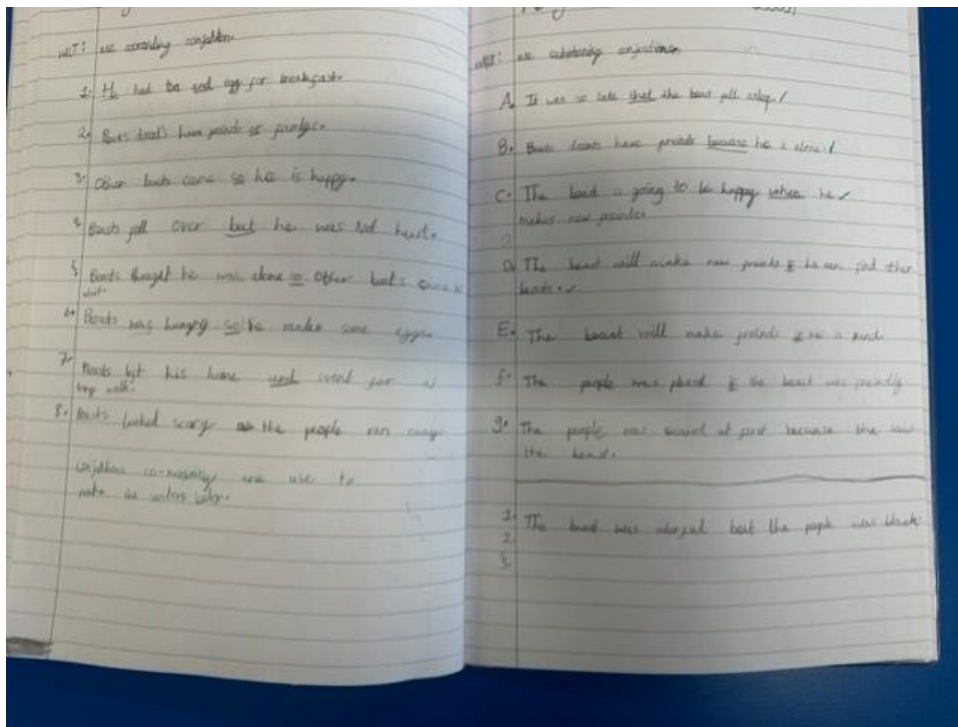

Through this experiential learning, they embrace the idea of healthy eating practices while remembering the narrative of our book "The Enormous Turnip."

**We are a growth mindset school. Our job is to challenge our pupils and let them thrive.**

## English at Havelock Year 2

This week, year 2 have started learning about features of an information text. They have learnt about what facts are and conjunctions. Next week they will be writing an information text about lions where they will try and include complex sentences.

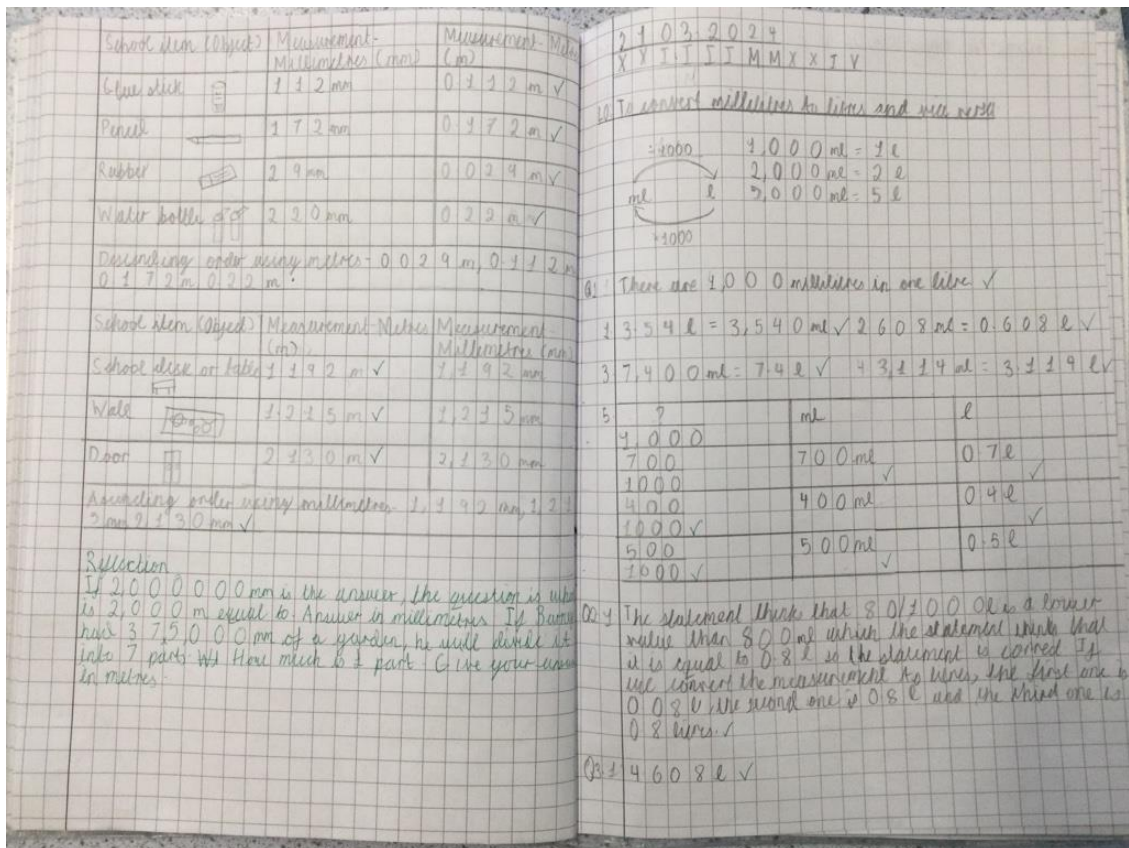

We are a growth mindset school. Our job is to challenge our pupils and let them thrive.

## Maths at Havelock Year 5

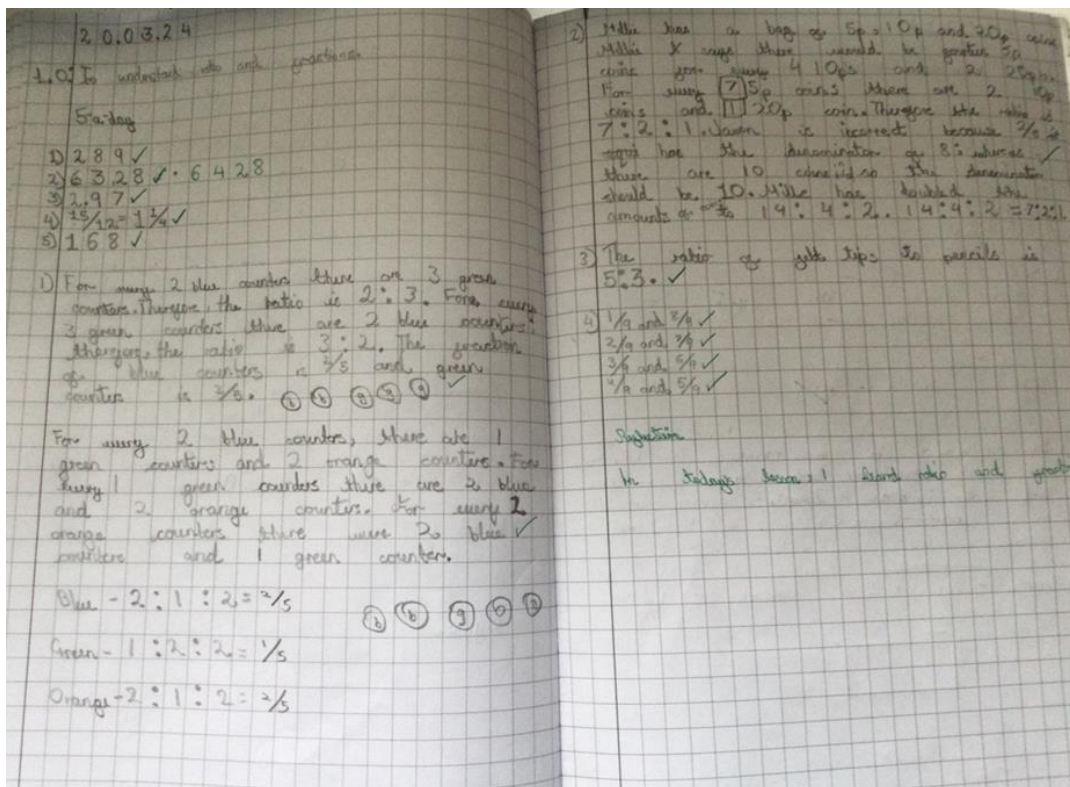

Year 5 students have been applying their understanding of place value to convert measurements, such as from millilitres to litres and vice versa. Additionally, they've been exploring various objects in their classrooms, selecting suitable units of measurement like millimetres, centimetres, and meters, to measure these objects accurately. This hands-on experience helped them grasp the concept of measurement and conversion effectively.

We are a growth mindset school. Our job is to challenge our pupils and let them thrive.

## Maths at Havelock Year 6

In year 6, children have been exploring ratios. They have been practising using tier 3 (subject-specific) vocabulary to describe proportionality between 2 and more different objects such as counters. They have then linked their learning to scale factors.

We are a growth mindset school. Our job is to challenge our pupils and let them thrive.
